Infrastructure fast-track good news

The RACT has welcomed the Premier's announcement that the Government will immediately review and seek to bring forward the State's infrastructure spend in order to stimulate economic activity and jobs growth.

"Bringing forward infrastructure works is something we have been actively calling for, and we welcome today's announcement", RACT Group CEO Mark Mugnaioni said.

"We urge the Government to bring forward the construction of the priority projects we have identified:

- Hobart Airport Roundabout
- Derwent River Ferries
- Huntingfield Park and Ride
- West Tamar Highway north of Legana
- Bass Highway at Boat Harbour."
